

The Locked Room

Room

Book reviewing

I liked the story. It was very interesting. At first I thought that the boy had an accident because he doesn't remember anything and the man who brought him water helped him. Then it turned out that the man and the woman were criminals. The boy cleverly figured it all out. I liked how he got the key and called the police. The police came just in time because the boy was about to be killed. I was very surprised that the boy (whose name is

Eddie Hampton) is also a thief. I thought he was a policeman but I really liked the story.

Chapter 1

The boy didn't remember anything. The man wanted to know his name but he didn't know it. The man used his gun to scare the boy.

Chapter 2

The boy already remembered how the bump got on his head. He wanted to know more.

Chapter 3

The man asked the boy again. The boy remembers new things.

Chapter 4

The boy escaped from the locked room. He found missing painting. He telephoned to the police.

Chapter 5

The police caught the criminals. It turned out that the boy himself was a thief.
